

The Goals

3. Improve student academic achievement.

1. Improve the mental health resources available in the district.

2. Encourage a focus on physical health in curriculum and in practice.

Suggested Actions to Meet Goals

1. Improve the mental health resources available in the District.

- Provide more mental health personnel and resources.
- Increase time spent delivering mental health curriculum PK-12.
- Dedicate time in RTI meetings to discuss mental health issues and how to address these.

Suggested Actions to Meet Goals

2. Improve physical health in curriculum and in practice.

- Work with the Wellness Committee to provide at least three fun activities to increase physical activity for students and staff during the 2019-2020 school year.
- Participate in Farm-to-Table program to provide healthy food for students and staff.

Suggested Actions to Meet Goals

3. Improve student academic achievement.

- Work with data coordinator to identify specific areas in need of improvement and focus.
- Form curriculum teams to improve curriculum and instruction.
- Monitor student achievement at least quarterly.
- Provide opportunities for professional development in growth mindset, instructional practices, progress monitoring, intervention, and remediation.

Suggested Measures of Success

1. Improve the mental health resources available in the District.

- Data on the ratio of students to mental health personnel/caseload.
- Data on the success of referrals from RTI meetings.
- Reports to the BOE on the mental health curriculum offered to students.

One in four people has a **mental illness**.
You can be the **one** that helps.

Suggested Measures of Success

2. Improve physical health in curriculum and in practice.

- Increase the number of Wellness Committee activities and participants district-wide throughout the year.
- Successful implementation of Farm-to-Table program.

Suggested Measures of Success

3. Improve student academic achievement.

- List identified areas in need of improvement and focus in grades K-8 and create action plan to address these.
- Agendas from vertical curriculum teams with action plans on how to improve curriculum and instruction; necessary changes made.
- Data from academic progress monitoring throughout the year.
- Increase professional development opportunities and number of participants.
- 2019-20 NYS Assessment data shows equal or better achievement with similar schools.

Discussion

3. Improve student academic achievement.

1. Improve the mental health resources available in the district.

2. Encourage a focus on physical health in curriculum and in practice.
